About Me

I am a Computer Science Graduate, recently graduating from North South University. I hail from an English Medium background, completing my O levels and A levels from Academia. I am a tech savvy person and honed my skills in several aspects of computer science, especially in the field of Artificial Intelligence (AI). I also showed my expertise in the field of software engineering and database. I would love to work in any field that is concerned with Computer Science, and Information and Technology (IT).
